

All horses and other equidae must be accompanied by Certificate of Veterinary Inspection (CVI), formerly known as a health certificate or valid E x t e n d e d Equine Certificate of Veterinary Inspection showing age, breed, sex and markings to positively identify animals, including all vaccinations, date and result of required tests, issued within 30 days of arrival and an official document verifying a negative test for Equine Infectious Anemia (EIA) [Coggins test] showing a test date within 12 months prior to exhibition. Nursing foals less than six (6) months of age accompanied by their negative tested and documented dams are exempt from test requirements. The laboratory conducting the test must be approved by APHIS, USDA. Both aforementioned documents must clearly identify the animal(s) listed and be presented upon arrival before the animals can be admitted to the grounds or unloaded from the transport vehicles. (Do not mail these documents with your entries – they MUST accompany your horse/pony upon arrival.) Any equine arriving without the above defined documentation will not be allowed entrance onto the grounds or into the barns. EHV Vaccinations are recommended. Check the Oklahoma State Fair website for any additional health concerns or mandates that may be applicable by September.

Rule 2: For questions regarding current and exact health documentation requirements, contact the Oklahoma Department of Agriculture, Animal Industry Services 405-522-6141.
